Dr. Arlen Leholm
NCRA Executive Director's Office
212D Agriculture Hall
1450 Linden Dr.
Madison Ave.

Arlen Leholm:

It is my understanding that Purdue University, University of Kentucky and The Ohio State University have requested a letter of support for a project related to K-16 student engagement created by empowering the educators through authentic learning and assessment in the life sciences, especially those associated with agriculture and natural resources. OARDC is willing to support the concept of the project and to support Jamie Cano's travel expenses to attend and participate in formulating a NCDC writing committee.

If you have any questions, please contact my office.

Sincerely yours,

David A. Benfield
Associate Director
