Hi Valentin

Yes – I would be happy to be the Advisor for the group.

Troy, I'm following up on this question. Would you agree to be advisor of this group? Do you want to meet and discuss? Thanks!

Subject: Fwd: New Multistate North Central Coordinating Committee?

Troy,
I hope your summer is going well. I am working with a group of colleagues from the north central region to develop a proposal for a north central committee on Perennial Grains development (kernza, silphium, Sanfoin, etc.). This is an outcome of the USDA SAS kernza cap. We have faculty from UMN, KSU, UNL, OSU, NDSU, MSU, ISU, among others. I got

advise from Chris Hamilton on the process. The first step is get support from one director, and she suggested I should contact you. Would you be supportive of this? Would you agree to be our advisor?

Thanks for considering!

Hi,

Glenda is the director, but Troy works the most with the NCRA, so I would ask him.

Thanks!

Best,
Chris

Excellent! Thanks.

Yes, I checked and there is nothing remotely overlapping.
Who is our director? Glenda? Troy? Let me know so I can ask them to be the project advisor.
Is there a deadline for the submission?

Hi,

Here's how to go about requesting a new project. You need to start with an NCDG to make sure there's good support from the NCRA directors (need approval from two NC AES directors, with one willing to serve as the AA). Let me know if you have other questions and be sure to search NIMSS to make sure it's not duplicitous with other projects, not just NC but other regions, as well.

Thanks!

Best,
Chris

Subject: New Multistate North Central Coordinating Committee?

Dear Chris and Casey,

We have been discussing with a group of colleagues from the North Central region the idea of creating a New Multistate project on Perennial Grains. As you know, I am part of the NCCC-31, the North Central Coordinating Committee on Ecophysiology of Forages. We would like to create a new NCCC-XX for perennial grains. Can you explain what are the steps for this? For background, I know the process for the project renewal of the NCCC-31 (submit by sept 15 request, oct 15 objectives, nov 15 participants, dec 1 full proposal deadline). Is it the same for a new NCCC? Or is it a different process? Are there templates of documents? Thanks for your help!
