About DIFM / NC-1210

Researchers with the NIMSS Multi-State Project titled, "Frontiers in On-Farm Experimentation" will be hosting their annual meeting to present current research developments and plan activities for the upcoming year. Scientific papers are encouraged and will be presented during the meeting. We encourage you to join us!

Multistate Research and Activities are supported by the State Agricultural Experiment Station (SAES) from the Hatch Multistate Research Fund (MRF) provided by the National Institute for Food and Agriculture (NIFA).

- Free Breakfast
- Free Parking
- Heated outdoor pool
