

Joint International Sweet Corn Development Association (ISCD) and the Corn Breeding Research (CBR – NCCC167) Annual Meeting

December 4-5, 2017

Registration: Registration fees for all attendees will be \$100. Registration includes morning and afternoon session breaks. Please register using the following link <https://uwccs.eventsair.com/cbr18/reg>. Registration will also be available on site, but we will not have the ability to make change or use credit cards, therefore exact amount in cash or a check is required. Online registration is preferred.

Meeting Schedule: Sessions of the 2018 Joint International Sweet Corn Development Association (ISCD) and the Corn Breeding Research (CBR – NCCC167) Annual Meeting will include the Larry Darrah Student Presentation Sessions, and research talks on a variety of subjects. A draft program can be found below. This meeting will not include a poster sessions, however; we encourage students to hang their poster at the American Seed Trade Association (ASTA) meeting immediately following. Students can register for the ASTA meeting for free and should contact info@amseed.org for information on student registration and poster presentations.

Student Awards: Graduate students are invited to submit abstracts for oral presentations during the graduate student session. The Larry Darrah Student Presentation Award will be given to the best student oral presentation. Graduate student abstracts should be submitted to Tony Studer at astuder@illinois.edu. The deadline for abstract submission is Friday, November 10th at 5PM CST.

Abstracts should contain title, authors, author institution affiliations, and up to 300 words of text. All text should be 12-point New Times Roman and left justified. Please include all authors in the form last name, first name followed by a numerical footnote to indicate institutional affiliation. Include asterisk following presenting author's name. List institution with footnotes following authors. Please adhere to formatting guidelines to assist with compilation of abstracts.

Lodging: Hotel accommodations should be made on individual basis. Those attending ASTA can find more information about the reduced rate at the Hyatt using the following link: <http://www.betterseed.org/events/asta-css-seed-expo/3474-2/>. There are many hotels in the surrounding area that would serve as good alternatives.
