1. Welcome and Introductions

2. Announcements

3. Discussion and Station Reports

Objective 1. Adapt or develop harvest, handling and storage technologies to improve fruit quality, increase consumption and reduce food waste.

Objective 2. Improve our understanding of the biology of fruit quality to further our development of harvest and storage technology and development of new plant materials.

4. Plan the meeting for 2020.

We plan to meet following the ASHS conference at the same venue. We do not expect a registration fee, but without catering, meals will be on your own.
