Dear Jared,

I authorized the meeting in NIMSS for October 17, 2019. Is this incorrect? I can re-send the authorization with revised dates and I can include the body of your email below in the message from NIMSS. Please let me know if you'd like to re-send the authorization.

Regards,

David

Subject: Chemical Ecology Multi-state Meeting 10/17-10/18

Hey everyone,

I'm trying to make sure we secure everything for our upcoming multi-state meeting. Currently, we will meet Thursday Night October 18th, 2019 and have a casual group dinner at our home 100 Skytop Lane Port Matilda, PA 16870. Friday we will have our meeting beginning around 9am. I very excited that we were selected to use the "Morning Star Solar home" for our meeting location (see attached pictures). I convinced the center for sustainability to let us use it! Later that evening we will have dinner at [Windswept farms](#) (last picture below). One thing I want to figure out is if we can have everyone one paired with a Penn State resident. I have talked to a few of you about this and hope we can get everyone situated. Please if you haven't had a chance please fill out the [form\(here\)](#) by the end of this week. After I get the final tally I will send out a detailed itinerary that will include suggestions from everyone.

Thanks/More soon! - Jared
