Subject: Fw: Please mark your calendars: Joint Regions Soil-Testing Speaker Series, Tuesdays in June

Hello All,

Please distribute the attached announcement regarding our joint "meeting." I have shared with the southern regional group. More specific details to follow. Thanks for everyone's help in getting this organized thus far. FYI, the southern region has decided to meet one of the afternoons, but I didn't schedule anything for your specific regions to meet. Please do so separately as needed. We have a few more speakers to nail down. I might be getting in touch for your help with that next week.

Have a good weekend!

Subject: Please mark your calendars: Joint Regions Soil-Testing Speaker Series, Tuesdays in June

Hello colleagues,

Please mark your calendars for our Joint Regions Soil-Testing Speaker Series hosted by the Southern Region group SERA-IEG-6 (Shannon Alford, Clemson University). Although, we will have to put off meeting together for another year, this should be a good time to reconnect with our colleagues across the country.

Dates: Tuesdays, June 15, 22, 29

Time: starting at 10:00am EDT

Duration: ~2.5-3 hours per day

Topics are a good mix voted on by your colleagues: soil health, potassium research, hemp testing, nitrogen management, soil test calibration/recommendations

SERA-6 only session: Tuesday June 22, 1:30pm-3:30pm

Media platform: Zoom

More details will follow, but please keep these dates in mind.

Sincerely,

SHANNON ALFORD, PHD
